

## **Curcas Oil N.V. presented itself at the German Equity Forum 2008**

*Amsterdam, Netherlands, November 26<sup>th</sup>, 2008* – Curcas Oil N.V. (the “Company”) presented its business model at the German Equity Forum 2008 in Frankfurt am Main, Germany.

As part of its current pre IPO financing round, Mr. Kurt Stüssi, Managing Director and Founder, represented the Company at this year’s German Equity Forum in Frankfurt / Main, Germany. Curcas Oil N.V. intends to list on the Frankfurt Stock Exchange in the course of the first quarter 2009. Its subsidiary in Indonesia is planned to go public in Jakarta by the end of next year.

The German Equity Forum was held from November 10<sup>th</sup> to 12<sup>th</sup> 2008 at the Congress Center. Curcas Oil N.V. held a presentation at the much attended Alternative Energies Forum and answered questions by interested investors. In addition, Mr. Stüssi was available for discussion at the Company’s own booth and used the opportunity to inform interested investors about Curcas Oil N.V. and its benefits and advantages.

“The conference was a great success for Curcas Oil,” states Mr. Kurt Stüssi after the conference. “During the Equity Forum we have been approached by many investors, most of them specialized in the field of alternative energies, and held very good meetings with the press interested in the story of Jatropha and Curcas Oil.”

The conference was a great success for the company. Though the market situation remains challenging Curcas Oil received commitments for the ongoing placement from international institutional investors. As demand for biodiesel will increase by law in the future Curcas’s business model is not correlating with most businesses. Energy will always remain a dynamic sector.

During the conference Mr. Kurt Stüssi gave an interview on Jatropha and the development of Curcas Oil N.V. in the near future. Please follow this link to see the video:
